

**AMLI**

the Association of Medical Laboratory Immunologists

Dear Colleagues,

Hope you are enjoying the spring and safely getting back to your regular pursuits.

AMLI has been busy too, working on your behalf. I hope you joined in and took part in the new quarterly seminar series that we started last month. The education committee did a great job in setting it up and Jeff has put the information about this series and the lecture on our website. Please do visit the website for all the new information there. The education committee, Sara and Jeff deserve kudos for this successful launching of the series.

Your annual meeting is still planned to be an in-person meeting in beautiful Austin Texas in August. We will keep an eye on the situation and will always act safely and with prudence. Hope all of you are keeping safe and are vaccinated. And we hope to see you in sunny Austin.

There are a few elections coming up, please take part in those. We are always looking for new faces in our leadership teams. There are many opportunities in the leadership roles in your society. Please involve yourself in the activities that interest you and apply for different positions as they open up. This is your society and it gets stronger with your involvement.

Looking forward to normalcy.

Best regards.
